Applicant's response, including amendment, filed 29 October 2007 has been carefully considered.

Claims 9 and 10 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The scope of claims 9 and 10 cannot be reliably determined. Claims 9 and 10 recite hexafluorosilicic acid concentrations of 100 and 600 ppm, respectively, while depending from claim 1 which includes a lower limit of hexafluorosilicic acid of 10 mg/kg or 1000 ppm.

Claims 9 and 10 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 1, 5, 6, 8 and 11 are allowable over the prior art of record as the prior art of record fails to teach or suggest the combination of components in the proportions recited.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 2, 3, 4 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by US 6043206.

The reference teaches a method of cleaning polymeric sidewall residues from dry etched semiconductors having aluminum conductor tracks by dipping the materials into an aqueous solution including 0.01 to 25% fluoroboric acid (HBF₄). See Column 1, lines 24, 27-28 and 39; Column 3, lines 25-30 and 42-43.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory

action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
